

**PRODUCT**

**Metatartaric Acid**

**CHARACTERISTICS**

| SPECIFICATIONS          | LIMIT VALUES   |        | ANALYSIS METHODS            |
|-------------------------|----------------|--------|-----------------------------|
|                         | MIN.           | MAX.   |                             |
| Aspect solution 10% w/v | Amber slightly | ///    | Enologic International Code |
| Esterification index    | > 38 % **      | ///    | Enologic International Code |
| Total acídic functions  | 105 %          | 120 %  | Enologic International Code |
| Heavy Metals (as Pb)    | ///            | 10 ppm | Enologic International Code |

Shelf-life conservation

1 year

**\*\*Note:** Derivados Vínicos S.A. ensures that its Metatartaric Acid product has an esterification index > 38%, being that the International Oenological Codex specifies that this value must have a minimum of 32%.
